

CAR KIT INSTRUCTIONS

INSTRUCTIONS:

1. Attach the suction cup mount by holding it against a flat, nonporous surface and pushing the lever arm downward.

Lever arm

2. Press here to rotate the arm back and forth 180 degrees.

3. Rotate here to change the point of view 360 degrees.

4. Attach camera by inserting kit into the back of your VIEVU clip and slide downward to lock it into place.

Rotated for interior recording

Set for tabletop recording

USES OF THE VIEVU CAR KIT:

1. Attach it to a vehicle window or vessel so that you can capture events occurring inside or outside.

2. Attach it to the top of a desk or table top to record events in a room.

3. Quickly detach and take the camera with you in any situation.
