

LE5™

BODY-WORN CAMERA

CONNECTED. CONFIDENT. CAPTURE THE STORY.

Every situation has a story, whether predictable or not. The LE5 body-worn camera leads the field in advancing camera technology and design so you can be confident of capturing the critical moments of those stories.

Connected with Bluetooth®, Wi-Fi and integrated CAS™ technology with holster-camera auto-activation, Safariland® VIEVU® and the LE5 set a new standard in wearable technology helping to safeguard officers' safety, perspective, reputation and lives.

CAMERA FEATURES

- Bluetooth and Wi-Fi for in-field connectivity
- Integrated CAS technology for holster-camera auto-activation
- 12+ hours continuous recording
- Advanced optics including selectable field of view of 70, 95 or 120 degrees
- Covert mode alerts the wearer to the camera's activities using vibration
- One-touch on/off slide switch
- Lightweight, weatherproof and impact-resistant

EVIDENCE MANAGEMENT SOLUTIONS

Flexible digital evidence management with VIEVU® Solution™, a simple website interface for secure storage on the Microsoft Azure Government cloud, or VERIPATROL™, an on-site video management system.

- Meets FBI CJIS compliance standards
- Affordable and cost-effective data storage options
- Mobile applications for video download, addition of metadata and case information
- Secure sharing with unlimited system and non-system users
- Supported by full chain-of-custody reporting
